

WEDA B600

THE MOST POWERFUL POOL CLEANER ON THE MARKET

The Weda B600 has been the flag ship in the Weda range of cleaners since 1981. It has over the years been upgraded with new electronics and material to meet the demands in the changing pool market with various sizes and shapes of pools. It has been the selected cleaner in several Olympic games.

The B600 is delivered with a trolley with a built-in safety transformer that supplies safe 42 V to the cleaner. The B600 remains one of the largest and most efficient cleaner on the pool market. An excellent cleaner for the tough cleaning jobs. The strong suction enables the B600 also to be used for wall cleaning. The weight of the B600 is only 7 kilograms under water and in most pools the cleaner can be driven out of the pool and onto the trolley. It can be used in fully automatic mode and/or controlled by remote control when required. The base of the cleaner is the very powerful pump in combination with the rotating brushes. After all it is the cleaning capacity that is the most important factor.

Standard equipment

Trolley with built-in safety transformer
Double filterbags 120 micron
Double protection bags
Double rotating brushes
Power supply cable, 10 meters
(floating cable), 40 meters
Radio remote control/timer

Optional equipment

Filter bags 70 or 200 micron
Discharge hose connection 2"
Discharge hose 2" 50 meters
Fixed spring loaded brush (algae brush)
Free stream impeller
Flexible bumper bar for continuous operation
Umbilical (floating cable) 41 to 50 meters

Technical data

Weight in air:	approx. 52 kg
Weight in water:	approx. 7 kg
Dimensions (LxWxH):	86 x 60 x 30 cm
Suction width:	60 cm
Suction capacity:	1200 liters/minute
Variable speed in manual mode:	0,2 and 0,4 m/second
Speed in automatic mode:	0,2 m/second
Mains voltage 3-phase, 50/60Hz:	205/230/400 V
Operating voltage:	42 V
Max. power output	2,5 kW

Our business - underwater cleaning technology

WEDA offers a wide range of cleaners for small and large drinking water reservoirs, various types of filters and sedimentation basins. WEDA, formed in 1919, is a Swedish company with headquarters in the town of Södertälje, south of Stockholm. WEDA products are available worldwide through a global network of distributors and Weda subsidiaries in the US and Germany .
